Career Objective

My current career objective is to get a position of a junior .NET Developer/System Support so that I can utilize my technical knowledge for developing .NET applications and also to contribute to multiple projects.

Currently Looking for

Junior or Trainee Position: Software Development (Preferably .Net Framework with C# or SQL Server) position – Open for other technologies.

Looking to further my current skills in Software Development after a 12 months internship (Completed) with Tata Consultancy Services(TCS) in Maharashtra, Pune India.

Summary

Experienced junior Developer/System Administrator professional with almost 2 years' of total IT industry experience in which more than 1 year is in the native .Net Application development/support.

My decision making skills and good communication skills allowed me to communicate with my leads, team members and handle tasks effectively. Known for high energy, self-organized and high performance in project.
